Frontend: HTML, CSS/SCSS, SLDS, JavaScript, React

UX design: Figma, Adobe, WordPress, Squarespace

Git as version control

Project management

Teaching

Salesforce

Work Experience

Freelancer and Contractor
January 2022 - Present
- Inspire Physio: Created site UI design and implemented layout to reflect content strategy
- Evvia Digital Limited Co.: Helped create early-stage prototype design for app concept
- Skapa Development: Contributed to app-building using React and Meteor

UX Associate Consultant for MTX Group
May 2023 - May 2025
- Frontend development: created pages and Lightning components using SCSS and SLDS library
- Designed components and flows in Figma
- Participated in discovery meetings to understand clients' product needs and help create optimal user experiences
- Worked closely with other developers, project managers, tech leads and business analyists to complete sprints and meet deadlines
- Trained in W3C Accessibility Standards (WCAG) and making sure all user interfaces are AA-level compliant

Software Developer and Project Coordinator for MoreThanGates
April 2022 - October 2022
- Designed project management and time-tracking app for general contracting company, including over 100 frames of UI/UX mockups on Figma
- Reformatted and streamlined workflow structure to better include and serve employees across multiple professions (administrators, metal fabricators, etc.)
- Helped manage several projects to gain understanding of company's productivity needs
- Communicated regularly with another software developer to be sure pages were well-integrated for development in React frontend

Technical Coach for Deep Dive Coding Fullstack Web Development
January - March 2022
- Supervised and helped individuals with projects and assignments for program success

Assistant Instructor for DDC Fullstack Web Development Bootcamp
October - December 2021
- Provided assistance to lead instructor in fully-remote intensive fullstack coding program, teaching students a modified MERN stack (with MySQL)
- Contributed to and led lectures; graded assignments; managed students' projects and deadlines
- Helped students with fundamentals of web and app design; Git as version control and resolving merge conflicts; frontend concepts and backend frameworks

Certifications

Salesforce Certified User Experience Designer Credential ID 4485845
May 2024

Volunteering and Events

Mentor for Deep Dive Coding
April 2021 - Present
- Providing technical advice and assisting fullstack students in building capstone apps

RSI and Women Who Code Hackathon
November 2022
- Worked with a small team in a short amount of time to plan and create an app for giving homeless women better access to public health resources
- Created UI mockups in Figma and helped code CSS styling on frontend

Education

Deep Dive Coding Fullstack Bootcamp through CNM: Certificate in MERN Stack
January - March 2021
University of New Mexico: International Studies, minor in Religion
2013 - 2017
Henry Ford College: Associates in Liberal Arts in the Honors College
2011 – 2013
